WORK SUMMARY

FRONT END DEVELOPER

DevX Digital | 2022-2023 - project-based

- Developed React components and implemented workflows such as exporting user private keys or seed phrases.
- Collaborated with a team of skilled developers, continuously learning and expanding personal skillset.
- Demonstrated ability to meet tight deadlines and excel in fast-paced work environments.
- Created and managed Microsoft Excel spreadsheets for daily, weekly, and monthly reporting.
- Developed project plans and communicated deadlines to ensure timely completion of tasks.

FULL STACK DEVELOPER

Ogooga. | 2021-present

- Implemented mobile-first approach for website design, enhancing user experience on multiple devices.
- Collaborated closely with QA, designers, and content teams to ensure seamless integration of features.
- Developed custom WordPress blocks using PHP and Advanced Custom Fields to expand site functionality.
- Utilized HTML, CSS, and JavaScript to create features for both mobile and desktop platforms.
- Contributed to user-centric design strategies, translating UX and business requirements into coded solutions.

ABOUT ME

- Passionate about computers and technology
- Ability to work under pressure and meet deadlines
- Highly adaptable and quick to learn new technologies
- Detail-oriented and committed to delivering high-quality work
